AMBASSADOR™

STONE ATTACHÉ™ COLLECTION – COLORBODY™ PORCELAIN

Display the Utmost Confidence with the Ambassador™ Series

Inspired by the fine-grained quartzite found in the Swiss Alps, the Ambassador series lends high-end styling wherever it's used. Eons of stratification are reflected in the distinctive mono-directional graining of this ColorBody™ porcelain tile. Large format sizes in four handsome colors make the series a natural choice for design possibilities in commercial and residential spaces.

- MODERN AND ELEGANT FLAIR
 - Elegant stone look available in four colors featuring a high level of veining and distinctive patterns
 - Three modern sizes including 24 x 24, 12 x 24 and 24 x 48
- HEIGHTENED VERSATILITY
 - 12 x 24 available in Light Polished and Matte finishes
 - Unique, three-dimensional mosaic adds to the dynamics of this series

NOTES

Since there are variations in all fired ceramic and natural products, tile and trim supplied for your particular installation may not match samples. Final confirmation should be made from actual tiles and trim prior to installation. Manufactured in accordance with ANSI A137.1 standards.

Not for use on ramps. Water, oil, grease, improper drainage and certain footwear can create slippery conditions. Floor applications expected to be exposed to these conditions require extra caution in product selection.

For additional information refer to "Factors to Consider" at: daltile.com/Factors.

Random visuals enhance the natural beauty of this product. To achieve optimal results, all tile should be selected from multiple cartons and shading and graphic arrangement planned prior to installation.

Special consideration needs to be given when installing tiles greater than 15 inches. Please refer to daltile.com/LargeTiles for more information.

Manufacturer Advisory: All tile is measured by the DCOF AcuTest™ method. Tiles with DCOF values <0.42 are not recommended for use in areas with wet or slippery conditions. For more information, see ANSI standard A137.1 section 6.2.2.1.10, available at www.tileusa.com.

Special care should be taken when grouting with dark pigmented colors. A grout release is recommended to prevent finely powdered pigments from lodging in the pores of the surface. Use of a latex modified thin-set is recommended for installation.
